TERRITORIAL GOVERNMENT FOR NEW MEXICO.

On motion of Mr. CALEB B. SMITH, the House resolved itself into a Committee of the Whole on the state of the Union, (Mr. Cranston in the chair.) and proceeded to the consideration of the bill (reported by Mr. C. B. Smith) from the Committee on the Territories to catablish a territorial government for New Mexico.

Mr. VINTON proposed to amend the bill so as to leave the disputed question of the western boundary of Texas to be adjudicated by the Supreme Court of the United States. Or this proposition debate arose between Mesaca. VINTON, GREELEY, BAYLY, TOOMBS, and SCHENCK, with interruptions from Mesars. PETTIT, DUNCAN, WOODWARD, KAUFMAN, and McCLERNAND; after which the committee rose, and The House adjourned.

Immediately after the nomination of General Taylor at posed to have the confidence of General Taylor more than any other man in the Union) proclaimed in this city, was to take place under the brave old chieftain, if he were elected. Proscription itself was to be proscribed, and no public officer was to be molested on account of

his political opinions.

And from the time of his nomination to his election General Taylor himself professed the same lofty and ennobling sentiment. Often did he declare, orally and by letter, that he "had no enemies to punish;" that he would be "the President of the people, and not of a party." He even went so far as to declare, in a published letter, that he would have as freely accepted a nomination of the democratic convention at Baltimore, as the whig convention at Philadelphia. Thus did he invite his opponents, in office as well as out, to a free and independent expression of opinion. And everywhere, and by all his supporters, his election was advocated on the express ground, among others, that public officers were not to be molested because they were opposed to him politically. If General Taylor was publicly and solemnly pledged to any course of action, it was that he should ne proscribe his political opponents.

Yet, what do we now witness in this city? Hundreds,

aye, thousands of greedy partisans, who have come here

from all parts of the country to demand office at the hands of Gen. Taylor-to demand that he shall proscribe and turn out of office those who have honestly and independently opposed his election, and have thus done what Gen. Taylor himself invited them to do. Not only have this myriad of famished expectants come up from the cities and villages of the Union clamoring for office, but the public press, and honorable members of Congress of the whig party, are loud in their demands for the proscription and removal of their democratic opponents. These men, and these presses, thus not only prove their hollow-hearted hypocrisy in denouncing proscription during the canvass, but they shamelessly demand of the brave old soldier who has elevated them to power through the instrumentality of the glorious military reputation which he won by serving in a war which they opposed, to falsify his pledged word, and to become the revelations of the oracle, whose benests he interprets. uthless executioner of all those in office who differ with him politically, and who have honestly opposed he elevation of the whig party to power in his person that delicate and proud sense of honor which we have for the remark which we make upon his letter-not in been taught to believe always actuates the soldier's bo som, and which we are bound to believe controls Gen

We shall soon see. But there are some reasons which might authorize us to infer that those who suppose General Taylor will falsify his public pledges, and thus prove to the world that he is the bigoted partisan, and not the proud and honorable soldier which he would fain have the world what then? Admit the propriety of guarding the Execubelieve, may be disappointed. Those reasons are briefly these: He owes his elevation to the policy of the democratic party. The democratic party of the Union supported the cause which gave him the opportunity to acquire all his glory and renown as a soldier, and thus secured his elevation to the presidency. They provided him with means to fight his battles, and re oiced in his victories. Their hearts were in the cause n which his services were employed, and his success obtained, and they exulted in the achievements which crowned him with laurels and covered their country with measures as he shall judge necessary and expe glory. More than that-many democrats voted for him. We believe that the sequel will show they erred greatly; but, nevertheless, they voted for him, and thus contributed ington, and "apply them again in the administrato his elevation to the presidency. But, in thus doing, they did not believe they were voting for an "ultra" whig, nor for one who would raise to power that party veto, or refusing to recommend measures, lest he might

great body of the whig party were openly and bitterly letter: opposed to the policy which has made him President. He must be conscious that the whigs in mass, particularly in the middle and northern States, were particularly in the middle and northern States, were not only opposed to the war with Mexico, but they openly expressed their traitorous wishes that he might be defeated and his army destroyed. They desired his defeat and disgrace, and if it had been in their power, they would have accomplished their wicked and awful ends; and thus would Gen. Taylor's political aspirations have been buried in the same grave with his military and not reputation. We cannot perceive how, on any known principles of human action, General Taylor can sympathise with a party that has been guilty of such conduct, although he has received their reluctant support, and therefore we have a right to believe a priori that the President elect will not falsify his professions and dishonor himself, by proscribing the party who have opposed the elevation of the whig party to power in his person, but who have not been hostile to him personally.

But we must confess that the signs of the times lead us to a different conclusion. We have never, in our long political experience, witnessed a more proscriptive spirit among the leaders as well as the masses of the whig party, than now pervades their ranks. Their thirst for the blood (political, we mean) of their opponents, is fierce and insatiable. Many of them are even so indecent as to prescribe to democrata in office the precise time when as to prescribe to democrats in office the precise time when sent they are to be removed. This rancorous spirit of political proscription pervades the halls of Congress, the clubs of this city, and the horde of office-seekers who throng its

He might consider it presumption in us to pretend to advise him. Yet we do not hesitate to say boldly, that whilst it is the duty of every President to listen to applications, it is equally his duty and his interest to decide nothing hastily, and to commit himself to no man for office, until his mind has been maturely and perfectly made up, upon the best grounds to confer it on him.

Germanic Confederation, which is slowly increasing. It is not probable that any of the American navy officers will, for the present, attach themselves to the Germanic squadon. Congress will scarcely, at this late period of the session, give their consent to any American officers entering foreign service, which the federal constitution makes indispensable.

Commodore Parker was pleased with his visit to Lon lon, Berlin, Frankfort, &c.; and was very much struck and delighted with the high respect in which the United States are everywhere held abroad. Our country has won her way to the highest reputation. Never did she stand as high in Europe. Every impartial observer seems to be impressed with the prosperity she enjoys, and the destiny to which she is rapidly ascending.

We have just heard a very curious anecdote from an American who has recently returned from Liverpool. He obtained it from General Armstrong, who had it immediately from the gardener of the Earl of Derby himself The Earl lives within about eight miles of Liverpool. He had just received some bulbous roots from California, wrapped up in the dirt of their native country; and as a nere matter of curiosity, he directed the earth to be washed for the purpose of seeing whether it contained any particles of gold. His instructions were followed, and the result was nearly-a handful of gold dust and shells from the washings of the earth.

We understand that the gold fever has not abated in England or on the continent. Several vessels were fitting out to transport emigrants to the fairy land, and there were five vessels detained at Bremen by the ice which are destined to California.

General Persifor Smith has issued a sort of veto circu ar, to restrict the adventures of foreigners visiting California-not for settlement, but for gold.

college Inaugural Entertainment.—A Fair of really useful and beautiful funcy atticles—accompanied with every variety of refreshments—will open on Friday, 2.1 March, to be continued through Saturday and Monday fo lowing, on Pennsylvania avenue, nearly opposite Brown's Hotel, in the room lately occupied by Messrs. Jackson. Hours of reception from 11 o'clock a.m. to 10 p. m. The proceeds are to benefit the oldest church in Washington, in which our early Presidents and other public officers worshipped. It was located for the convenience of the first settlers in our city, and where it was then supposed would be the most populous part of it; and although for a long period it occupied a very important position, and still occupies an important one, in some respects, yet the sound of the "church-going bell" has never been heard in its neighborhood, except when occasionally its dying echoes have been wafied thither by the western breeze.

To aid the vestry in their efforts to procure a bell and organ, the lattics of the congregation have kindly come forward and prepared with their own hands the chief portion of the articles and industry of the congression. Upon each of which is the price marked, with reference to the value of the article, and nothing more will be expected of particlesses. Both citizens and visitors to the city are invested, without regard to party or sect, to attend. Expecially do they solicit the patronage of their more highly favored brethren, and of those whose ancesors have bowed at the altra of "OLD CHRIST'S CHURCH, Navy Yard."

6:5-Notice.—An adjourned meeting of the officers of the war of 1812 will be held at the rooms of Major John G. Camp, at 12 o'clock, on Saturday, the 3d of March. A total national national strendance is requested of all the officers of that war whether visiting, sojourning, or stationed in the city of Washington.

Grand Serial, Original Panorama of Mexico,

Grand Serial, Original Panorama of Mexico,

EXHIBITING at Pennsylvania Hall, on Pennsylvania avenue, immediately opposite Brown's Hotel. It occupies 21,000 feet of canvass, and delineates all the points of interest on the routes pursued by the two chief divisions of the American army in Mexico, under Generals Taylor and Scott; the cities, towns, battle-fields, and scenery of the country.

It is respectfully announced that this highly popular and interesting work of art, exhibited during the past six months in Boston and Naw York, and witnessed by more than 100,000 persons, who, with one accord, pronounced it the most comprehensive and fluished panorama ever produced in America, far surpassing Banvard's Mississippi, will open, as above, in the entire new and beautiful hall, on Tuesday evening, February 27.
